LYTHER NOWODHOW

Headteacher Message

Despite the warmer weather this week, it has been wonderful to see our children continuing to enjoy such a wide range of enriching experiences. Thanks to the careful planning and dynamic risk assessments carried out by staff, alongside the support of Crofty, children have been able to make the most of every opportunity while remaining safe and well.

It has been lovely to hear pupils speaking so positively about their experiences, from Welly Wednesday and Wild Tribe sessions, with plenty of shade, hydration breaks and water activities, to our Year 4 pupils attending the GoCornish Awards ceremony at County Hall, where the school's achievements were recognised. Hawk Owls also enjoyed a fantastic visit to King Edward Mine to support their study of rocks and local mining heritage.

I even had the pleasure of seeing our Barn Owls enjoying relaxing foot spas to help keep cool, a wonderful example of the creativity, care and thoughtfulness shown by staff in ensuring children can continue to learn, explore and have fun, whatever the weather.

A huge thank you must also go to FROGS, whose fundraising efforts continue to enrich the experiences of all our children. Their support helps fund educational trips, new equipment, playground improvements, seasonal events and assistance for families across our school community.

To ensure this valuable work can continue, FROGS urgently needs volunteers to take on the roles of Chair and Treasurer, as well as new members to join the team. A letter and email have been sent to all families with further information about these roles and how to get involved. If you can spare some time and would like to make a real difference to our school community, please contact myself or a member of the FROGS team.

Thank you, as always, for your continued support.

Oll a'n gwella/All the best,

Mr Sturges

BARN OWLS

KOWANNOW GWYNN

Dear parents and carers,

Despite the heat Barn Owls have had a busy week exploring and investigating! The children have continued to show fantastic enthusiasm for their learning and have taken part in lots of exciting activities.

To help us stay cool, we enjoyed plenty of water play. The children had great fun pouring, splashing, and experimenting with different containers. These activities not only kept everyone refreshed but also supported their curiosity, exploration, teamwork and problem solving.

In our Wild Tribe session, the children created beautiful summer tiles using natural materials such as leaves, flowers, and herbs. It was lovely to see their creativity and appreciation of the natural environment.

In art, the children have been busy making bracelets using beads and learning simple knot tying skills. They showed great patience, concentration and perseverance whilst using their fine motor skills to thread the beads, and the finished pieces looked fantastic!

In science, we explored the topic of summer and learned about UV rays. The children were fascinated to use UV beads, which changed colour in the sunlight, helping us to understand the strength of the sun's rays and the importance of staying safe in sunny weather.

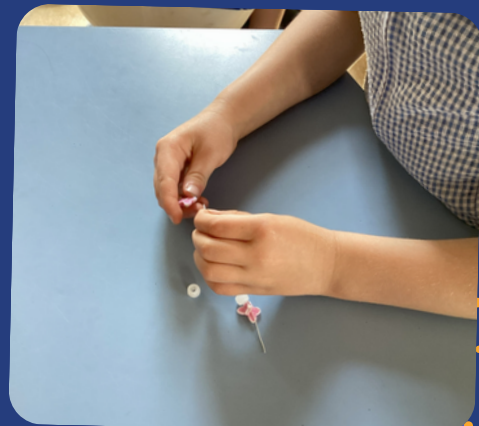

In maths, Year 1 children have been introduced to mass, exploring how to compare and measure different objects. Meanwhile, Reception children have been developing their understanding of repeating patterns, creating and identifying patterns using a range of materials.

We also took time to recap our wonderful trip to St Michael's Mount. The children reflected on their experience and wrote letters about their favourite parts of the trip. It was lovely to read their memories and see how much they enjoyed the visit.

Thank you for your continued support, especially in ensuring children come prepared for the warm weather with water bottles and sun hats.

We hope you have a lovely weekend and thank you for your support.

Barn Owls Team 😊

HAWK OWLS

Kowannow Sparr Hok

What a hot week it has been! The children have coped incredibly well through this unbelievably warm spell, and we are very proud of how resilient and positive they have been each day. Despite the heat, they have remained focused and enthusiastic, giving their best effort across all areas of learning.

In History, we explored the life of Bessie Coleman and learned about her historical significance as a pioneering aviator. The children were fascinated by her determination and courage, and it sparked some thoughtful discussions about equality and perseverance.

In Literacy, we have been writing captain's logs inspired by Finn's journey in *The Journey to the Place Where the Ocean Meets the Sky*. The children have produced some wonderful pieces of writing, and the vocabulary they used and wove into their work was truly impressive. It has been a joy to see their creativity flourish.

In other exciting news, you may recall that your child created a Flora Day poster for the Gorsedh Kernow Young People's Awards, celebrating Cornish culture. We are absolutely delighted to share that the judges were highly impressed with the children's work. As a result, Garras School has been recognised in not just one, but two categories: joint winners in Cornish Study, and highly commended in Art ha Dhesin (Art & Design). This is a fantastic achievement, and we are incredibly proud of all the children involved.

As part of our study Rocks in science, Hawks Owls enjoyed another memorable trip to a mine, the King Edward Mine. It was a fantastic day, and the children were excited with panning for real gold!

Thank you, as always, for your continued support. We hope you all stay cool and have a lovely weekend!

EAGLE OWLS

Kowannow Er

This week saw our first whole-school transition session. It was a great success! The new Eagle Owls cohort enjoyed getting to know one another through a fun game of Two Truths and a Lie and created self-portraits to reflect their personalities. Be sure to pop into the classroom in September to see their fantastic artwork on display.

We also had another brilliant open water session. The children took part in a harbour swim, jumped from the steps, and enjoyed a variety of water games. The sea was delightfully refreshing during this week's heatwave!

Meanwhile, Year 5 enjoyed their latest Wild Tribe session, where they built dens to provide shelter from the sun and had lots of fun with water play. We also finally got to use our solar ovens to toast marshmallows—although a few disappeared before they had the chance to cook!

Another brilliant week of learning and exploration—well done, Eagle Owls! 🦉

On Thursday, Year 4 had a wonderful trip to County Hall to receive their GoCornish Bronze certificate and plaque as part of the GoCornishPerghenegi Lys KernowTakeover event.

The children were welcomed in both Cornish and English by VWill Coleman and the Grand Bard, which made the day feel extra special from the very start. While they were there, they performed the sea shanty they had previously sung at our church service, this time entertaining counsellors and other schools!

The children also enjoyed taking part in a range of Cornish language games and activities, all celebrating Cornwall's unique language and heritage. The day ended with a very special award ceremony in the council chambers, where the children had the chance to sit in the chamber for the official presentation before singing Cornwall My Home - with the chorus in Cornish!

It was a fantastic day and the children were a real credit to the school. We are incredibly proud of the enthusiasm they have shown for learning and celebrating the Cornish language, and of the confidence and pride they showed throughout the day.

Congratulations to:

What Parents & Educators Need to Know about

SNAP STREAK

97

WHAT ARE THE RISKS?

SNAPCHAT

AGE RESTRICTION
13+

With over 900 million active monthly users and billions of "Snaps" sent each month, Snapchat is a popular messaging app among children and young people. It allows users to share fun, spontaneous pictures and videos with friends and family while using playful filters. One of Snapchat's unique features is that pictures, videos and messages are only viewable for a short period of time.

ARTIFICIAL INTELLIGENCE

Snapchat's use of artificial intelligence (AI) includes features like the 'My AI' chatbot and AI-powered filters, offering interactive experiences that can be fun but also pose risks. These tools may share unfiltered or inaccurate responses, promote unrealistic beauty standards, and collect personal data. Advanced filters and deepfake-style lenses can distort reality, potentially leading to manipulation, impersonation, or inappropriate content.

SCREEN ADDICTION

Snapchat boosts user engagement and daily use with features like streaks (daily Snapchat exchanges between you and a friend). When a streak's been going for a few days, users will see a 🔥 emoji. The number alongside it shows the number of days, but if users miss a day and break the streak, the only way to restore it is to pay. This encourages daily use habits, and frequent notifications can keep users returning to the app even more often.

SEXTORTION

Because Snapchat's disappearing messages feature may foster a sense of safety, users may become targets of sextortion, for example, a predator may pressure someone into sending nude images, then somehow capture those images to threaten and intimidate the victim. This might involve claiming they will share the images with friends or family unless money is paid.

SNAPCHAT+

Snapchat+ is the platform's premium subscription service, offering early access to new and exclusive features. In June 2023, Snapchat introduced a new tier called Lens+, giving subscribers access to hundreds of lenses and AR experiences for playing, creating, and sharing Snaps. These paid features may encourage young users to spend money to access exclusive content, increasing the risk of overspending or feeling pressured to make in-app purchases.

ACCESSIBILITY

Snapchat is now accessible from a web browser, meaning children can use it on a laptop or tablet without downloading the app. This can make activity harder to monitor, reduce the effectiveness of parental controls, and increase the risk of unsupervised communication or exposure to inappropriate content.

INAPPROPRIATE CONTENT

Some content on Snapchat isn't suitable for children. The hashtags used to group content are determined by the poster, so even an innocent search term could still yield age-inappropriate results. The app's disappearing messages feature also makes it easy for young people to share explicit images on impulse – so sexting continues to be a risk associated with Snapchat.

Advice for Parents & Educators

ACCESS THE SNAPCHAT FAMILY SAFETY HUB

Created with guidance from Common Sense Media, Snapchat has developed a Family Safety Hub that explains how the app works and how to use its in-app protections for teens. It's recommended that you review this guidance before allowing a child to download Snapchat. Remember, the app is only intended for children aged 13 and over.

ENCOURAGE OPEN DISCUSSIONS

Snapchat's risks can be easier to handle if you nurture an open dialogue. Talk about scams and blackmail before letting children sign up. If they're lured into a scam, encourage them to tell you immediately. Talk openly and non-judgementally about sexting, emphasising its inherent risks. Furthermore, explain how popular 'challenges' on the platform can have harmful consequences.

BLOCK AND REPORT

If a stranger connects with a child on Snapchat and makes them feel uncomfortable by pressuring them to send or receive unwanted or inappropriate images, the child can tap the three dots on that person's profile to report or block them. There are options to state why they're reporting that user, with a tailored reporting section under the 'Nudity and Sexual Content' category. In this category, there's a fine option to report somebody for threatening to leak sexually explicit images, or 'nudes'.

USE PRIVACY SETTINGS TOGETHER

Sit down with the children in your care and explore Snapchat's privacy settings as a shared activity. You can help them adjust who can contact them, view their stories, or see their location on Snap Map. It's a good opportunity to explain why some settings are safer than others, reinforcing their understanding of online boundaries. Encourage them to regularly review these settings, especially after app updates or changes in their friendship groups.

Meet Our Expert

Dr Claire Sutherland is an online safety consultant, educator and researcher who has developed and implemented anti-bullying and cyber safety policies for schools. She has written various academic papers and carried out research for the Australian Government comparing internet use and sexting behaviour of young people in the UK, USA and Australia.
